# Impact of COVID 19

What has and will happen?

**Remote Work Is Becoming the New Norm.**

Covid 19 has changed our lives forever

Lock down and social distancing has led to new ways of

- Socialising, learning, communicating and conducting business.
- Socialising
- Worshiping
- Education
- Working from home
- Home business
- Marketing & Selling - Prospects meeting and retailing
- Team management and communication
- Less commuting, more time saving, higher attendance and productivity

## Socialising - From home

- Face to face comm, emails, messaging - Family, friends, groups. 1:1 and 1: Many
- Platforms - Skype, Zoom, Team, WhatApps, WeChat(China)
- Hardware - PC, Laptop, Tablet, Smart Phone, WiFi.
- Network set up and device synchronization

## Worshiping

- 1: Many preaching, sermon, hymns, prayers in large groups (during lock down)
- Platforms - Zoom and ??????
- Returning to normal or keeping remote option?
- What platforms? What set up is needed
- Share screen option?

## Education

- Learning from home - Schools, Technical Institute, University, Other institutions.
- Schools may return to normal but some institutions may continue online lecturing
- Online information sharing and access. Online exams assignments etc.
- Information storage, access and security
- What set up is required?

## Home Business

- Prospecting can be done at least partially online.
- Client service can be delivered online
- Platforms for - meetings, share screen, privacy 1:1 and 1: Many
- What set up is needed? What tools, hardware and software?

## Businesses working from home

- Increasing number of businesses have switched to working from home. Some switch to 100% from home
- Reduce office space requirement - Lease cost savings. Office space rentals will be affected.
- Less commuting - saving time and money. No parking hassles and costs.
- For businesses who can find and service customers online - big cost savings and productivity gain.

## Prospect and client meetings

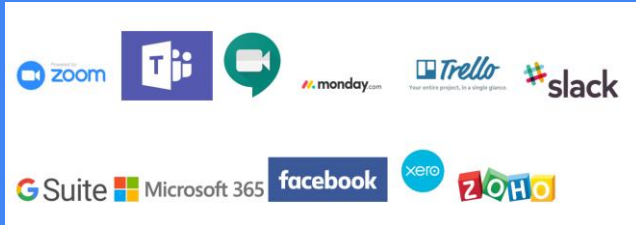

- Prospecting can be done through email, phone and meeting can be conducted on Zoom.
- Services can be provided online through Zoom (or others) with screen sharing platforms.
- What set up is required?

## Team management - communication, training

- Internal communication - meetings, briefing, task assignments and scheduling.
- Training 1:1 and 1: Many
- What tools and set up are required?

## Tools - Communication, storage, info access, security

- Information storage - what platform
- Information sharing - what platform - access control
- Information security - access and sharing
- What set up is required?

## Retailing online

- For many brick and mortar stores - Online purchase and delivery option became critical during lock down and level 3 and 2.
- Many will keep the online order, pick up and delivery option going for their customer's convenience
- E-commerce set up has become a necessity
- What set up is required for that?

## Hardware and software

- Hardware required for all the above
- Software required for all the above
- Set up services required for all the above

## What PC Onsite can do for you:
